

PREFERRED DEATH TO BEING CAUGHT

SHERBURNE ROBBER COMMITS SUICIDE.

In the Pursuit of the Bandits the
Leader of the Posse is Shot Dead.
Most of the Stolen Money Found on
the Dead Robber—His Bicycle
Broke.

Elmore, Minn., Oct. 10.—The bicycle
as a vehicle of crime was a failure in
the case of John D. Sair, one of the
Sherburne murderers, near here Friday
morning. He was scorching at a
furious pace, well ahead of the sheriff's
posse, when he struck a considerable
rise in the road and snapped off a
pedal. Five minutes later he was a
dead man.

Hundreds of men under the direction
of the sheriffs of Martin county, Min-
nesota, and Kossuth and Emmet coun-
ties, Iowa, have been riding over this
region since 4 o'clock Wednesday
afternoon. Early Friday morning
Deputy Sheriff Ward, of Martin county,
at the head of 100 men, got on the
trail of Sair and followed him east
through northern Iowa on the state
line road.

About 10 o'clock he was located in
a farm house, and a deputy went to the
door and rapped. It was opened at
once by a woman and Sair jumped up
behind her and before a word could be
spoken began firing directly into the
crowd of officers.

Seven shots were fired in less than
a minute. One of these struck Marshal
William Gallon, of Bancroft, Iowa, in
the forehead and he fell dead. The
sheriff's posse did not at once return
the fire because of the fear that innocent
people in the house would be killed.

In the confusion Sair ran out a back
door, mounted his bicycle, and rode
rapidly east on the state line road.
The posse galloped after him, and the
race was fast and furious. The horse-
men were aided by the fact that it
was raining hard, and the bicyclist
found the wheeling heavy. The race
continued four miles, when Sair broke
a pedal on his machine. He jumped a
fence and made for a piece of timber
half a mile away. Deputy Sheriff
Ward sprang from his horse, and tak-
ing a rest through the crotch of a sap-
ling, fired at the fleeing criminal with
his Winchester. The shot took effect
in Sair's shoulder. He fell, but re-
gained his feet at once, turned and
glared at his pursuers a moment, and
then deliberately put his revolver to
his right temple and blew out his own
brains. Upon examination of his clothing
it was found that Sair had about
\$600 in bank bills concealed in an in-
side pocket of his shirt. This identi-
fied him completely as one of the
Sherburne robbers. Buckled around
him were two revolvers and a knife
nearly a foot long. The posse brought
the body here and took it to Sherburne
on the afternoon train.

A second section of the posse found
that Fred Pratt, the other desperado,
had gone west and went in hot pursuit
of him. The rain increased during the
afternoon and made the work of pur-
suit very slow. A dispatch received
late in the day from Emmetsburg said
that a bicyclist who had apparently
been riding very hard had been cap-
tured at Estherville. The description
given answers very closely that of
Pratt when at Sherburne on Wednes-
day. Pratt's home is Wilder, Minn.,
and the man arrested at Estherville
will be taken there for identification.

Sherburne, Minn., Oct. 10.—A report
has just been received here that a
large posse of armed men has partly
surrounded the other robber near For-
est City, Iowa. It is said that the rob-
ber fought desperately, and several
shots were exchanged between the
bandit and his pursuers, but he finally
eluded his would-be capturers. The
posse continued the pursuit, with good
prospects of success. Coroner John-
son has just arrived here from the
south. He reports that all northern
Iowa is on the lookout for the bandit
who is still at large. Every road
where he may pass is guarded, and es-
cape is almost impossible.

Florida Election Returns.

Jacksonville, Fla., Oct. 10.—Accord-
ing to the latest indications the total
vote of the state for governor in Tues-
day's election did not exceed 40,500, of
which Bloxham received 27,250; Gunby
(rep.), 8,850, and Weeks (pop.), 4,400.
Complete returns from twenty-nine
counties of the forty-five give Bloxham
21,549 votes, as against 25,334 for Mit-
chell in the same counties in 1892, a loss
of 3,785, or 15 per cent, in the demo-
cratic total. Of the 100 members of the
senate and house ninety-one are demo-
crats, of whom sixty-four are believed
to be against and twenty-seven for the
re-election of Wilkinson Call to the
United States senate.

A. P. A. Women in Session.

Washington, Oct. 10.—The supreme
council of the Women's American Pro-
tective association is holding its an-
nual convention in this city. The
delegates, who are mostly from the
west, number nearly 100. Mrs. Carrie
O. Costdyke was re-elected president
for the fourth time.

Want Weyler Removed.

Havana, Oct. 10.—A telegram has
been sent by the Spanish element, the
conservatives, asking for the removal
of General Weyler on the ground that
his continuance in office means the sure
loss of the island.

GERMANY CHANGES HER DIET.

Wants No More Canned Beef from the
United States.

Washington, Oct. 10.—According to
unofficial, though trustworthy, infor-
mation received at the department of
agriculture, the German government
has followed its prohibition of the im-
portation of American dressed beef
and live cattle into Germany with a
new regulation which practically shuts
out American canned beef from the
German markets.

The agricultural department has no
information of any investigation on the
part of the German government as to
the presence of tuberculosis in
American cattle, but Dr. Salmon, chief
of the bureau of animal industry, says
that if such an investigation should be
set on foot it might mean that Ger-
many is somewhat more disposed than
she has been to consider the protests
of this government against her treat-
ment of our beef product. The matter
has been the subject of a long corres-
pondence conducted on behalf of this
government by the state department,
thus far without any apparent disposi-
tion on the part of Germany to yield.

FIRE AT CORNING, IOWA.

Theory That the Flames Were Set to
Conceal a Murder.

Corning, Iowa, Oct. 10.—Fire Friday
morning destroyed property valued at
\$200,000. The insurance is about one-
third the loss. During its progress sev-
eral houses were entered and robbed of
valuable portable property. The fire
broke out in the Reynolds elevator at
2:30 o'clock. The department was help-
less, as the boiler in the water works
station was undergoing repairs. A high
southeasterly wind prevailed, and in a
brief time the flames had destroyed the
elevators, surrounding corn cribs and
a number of cars belonging to the Chi-
cago, Burlington & Quincy railroad. In
one car was found the charred remains
of a man. How he came to be burned
alive cannot be understood. The theory
is that he was killed by tramps and
the elevator fired to conceal the crime.
Eight tramps have been arrested
charged with stealing.

Fusion Delayed in Missouri.

St. Louis, Mo., Oct. 10.—The result
of the meeting of the state populist
committee was a surprise. The vote
on the question of taking Sheridan
Webster, the candidate for auditor off
the ticket, on charges of refusal to
support the national ticket, stood 11 to
12 against his removal. Webster swore
allegiance to the ticket. The vote on
the resolution authorizing the execu-
tive committee to effect a fusion with
the democrats on the state ticket was
a tie. Chairman Rozelle cast the vote
favoring fusion. The friends of fusion
believe that substantial offers will be
made by the democrats within the next
few days.

Many to Be Put to Work.

Muncie, Ind., Oct. 10.—The news of
the settlement of the wage scale by the
green glass manufacturers and the
workmen at Pittsburg was received
with happiness by people who have
been actually suffering. They will be
given work. The settlement was made
on a 5 per cent reduction from the
scale of 1894. The skilled union men,
whom the reduction affects, are sullen,
but will resume work. Ball Brothers
announce that their enormous plant
will be placed in operation Monday
morning. By the resumption of this
plant over 1,500 men will be given em-
ployment.

Situation at Leadville.

Leadville, Col., Oct. 10.—Cornelius
McHugh, a gunsmith and sporting
goods dealer, is in the county jail
charged with perjury. Strong evidence
is said to have been obtained. Arms
used by the strikers were shipped to
McHugh from New Haven, Conn. Mc-
Hugh denied this when examined be-
fore the grand jury. Another body of
non-union miners from Missouri ar-
rived in the district today and next
week 300 Utah miners will be added
to the force now at work in the mines.

Flood Threatens Savannah, Ga.

Savannah, Ga., Oct. 10.—High water
in the Savannah river, resulting from
the strong northeast wind, will cause
much loss to rich planters, many of
whom had cut and stacked the crop in
the fields. At midnight some of the
city wharves were submerged, the
water being the highest known for a
long time. The barometer is falling
steadily and there is much uneasiness
among the people, who fear a repeti-
tion of the storm of Sept. 27.

Depositors Call for Money.

Gloucester, Mass., Oct. 10.—The Cape
Ann bank opened its doors Friday
morning for business. No run ensued,
although a number of people who had
bank books appeared soon after the
doors were opened and asked to with-
draw their deposits. The requests were
granted in all where the accounts were
less than \$50. Upon all deposits above
this amount the bank officials will ex-
act sixty days' notice of withdrawal, as
were accorded.

Hardee, Iowa, Has a Hold-Up.

Luverne, Iowa, Oct. 10.—A report
has been received here that a tall man
entered the bank of Hardee, southeast
of here, Friday afternoon, covered the
cashier with a revolver and demanded
the proceeds. He was handed out \$700
and made his escape.

Prince Bismarck Is Ill.

Berlin, Oct. 10.—The Volks Zeitung
says that Prince Bismarck is suffering
from neuralgia and insomnia.

THE BLUE AND GREYS UNITE AT CANTON; BRYAN SEEKING OUT THE FARMERS

PLEASING DEMONSTRATION AT MCKINLEY'S HOME.

Confederate Veterans of Virginia Wel-
comed by Major McKinley—Union
Generals Continue Their Tour of
Illinois—Harrison Will Not Leave
Indiana—Republican News.

Canton, Ohio, Oct. 10.—Two notable
and unprecedented features in presi-
dential campaigns distinguished Friday
in Canton. One was the call of the
confederate veterans of the Shenandoah
valley from Virginia on the repub-
lican presidential nominee, who carried
a musket as a federal private, and
another was the listening to the
business men's trades' demonstration
in Chicago by Maj. McKinley at his
home in Canton.

The highly polished hickory stump
sent Maj. McKinley by Sheriff Greener
of Knoxville and other east Tennessee
admirers was dedicated on the Mc-
Kinley porch in the morning. Three
coach loads of east Tennesseans came
with greeting and congratulations to
the nominee. The greetings were ex-
tended by Capt. William Rule, and re-
sponded to by Maj. McKinley, standing
upon the stump.

The visit of the old confederate war-
riors from the Shenandoah valley
brought thousands of people to town.
The 1,300 Virginians were expected
early in the morning. Train delays
kept them on the road until 4:30 o'clock.
Then they were met by the union vet-
erans of Canton, 700 strong. They
came with badges inscribed: "No north,
no south, no east, no west, the union
forever." Arm in arm with old boys in
blue, the veterans in gray were escorted
to the Tabernacle, where the G. A. R.
and the Woman's Relief Corps served
dinner.

H. A. Cavanah of Canton acted as
master of ceremonies when the crowd
was finally arranged about the stand,
and introduced Editor A. H. Funk-
houser of the Harristown (Va.) State
Republican to speak on behalf of the
delegation in general. In concluding
a felicitous address of greeting and
assurance of support, Mr. Funkhouser
introduced the confederate Gen. John
E. Roller, who spoke on behalf of the
soldiers.

GENERALS EN ROUTE.

Party Is Enthusiastically Greeted in
Illinois Towns.

Clinton, Ill., Oct. 10.—Generals Alger,
Stewart, Howard and Sickles were
heard here at 7:40 Friday morning by
an audience of nearly 4,000, chiefly farm-
ers. At Moline General Alger spoke
first, General Sickles followed and Gen-
eral Howard spoke until the train
moved out. La Salle was gay with
bunting and flags, and about 10,000 peo-
ple from the country and surrounding
towns gathered to welcome the union
generals, who arrived at 2 o'clock.
Generals Alger, Stewart, Howard and
Sickles spoke. The train bearing Alger
and the other generals arrived at Dixon
from the south at 6 p. m. General Alger
did the speaking and told of the
grand reception they had had all along
the line. The special arrived at Free-
port at 7:15. The last previous stop
was at Polo, where the speakers ad-
dressed a crowd of 4,000. The principal
speech here was made by General Sick-
les at the opera house. General Alger
and others spoke in a big tent holding
3,000. At Bloomington ten thousand
people assembled and welcomed the
Union Generals' battalion. Dr. J. Little,
on behalf of the Patriotic league,
presented a big bouquet to General
Sickles. General Alger made a brief
speech. Other speakers were Generals
Howard and Sickles and Corporal Tan-
ner.

Harrison to Speak in Indiana.

Indianapolis, Ind., Oct. 10.—W. T.
Durbin, national republican commit-
tee man for Indiana, announces that
ex-President Harrison has consented to
make several speeches, but he will
not go outside of Indiana. A delega-
tion came over from Richmond Fri-
day to see Mr. Harrison and ask him
to speak in that county. At the same
time the republican clubs of this city
united in a request that he address
them at Tomlinson hall.

Foraker Stumping Kansas.

Kansas City, Mo., Oct. 10.—J. B. For-
aker left Belleville, Kan., in his spe-
cial car at an early hour Friday morn-
ing. The first stop, made at Clay Center
at 7:50, found 300 people awaiting
the party. The Ohioan made a short
speech and was heartily cheered. At
Manhattan a forty-minute speech was
listened to by 1,500 people. At Her-
rington and other points where the
train stopped enthusiastic greetings
were accorded.

Longstreet for McKinley.

Augusta, Ga., Oct. 10.—The largest
republican rally held since reconstruc-
tion days in Augusta took place Friday
night. General Longstreet was unable
to speak owing to a throat trouble
caused by the wound he received at the
battle of the Wilderness, and the speech
he had prepared was read from the
platform. In his address General Long-
street strongly advocated the election of
McKinley.

Depew Speaks at Chicago.

Chicago, Oct. 10.—Twenty-five thou-
sand men and women were crowded to-
gether in the Coliseum last night to
hear Chauncey M. Depew.

MR. BRYAN PASSES THROUGH SOUTH DAKOTA.

Several Speeches Made on the Trip
From Sioux City to Sioux Falls—
Chairman Butler Claims Many
Stat sars "Safe For Bryan"—Pop-
ocratic News.

Sioux Falls, S. D., Oct. 10.—William
J. Bryan arrived in Sioux City, Iowa,
from Marshalltown at 10:25 Friday
morning, just on hour behind schedule
time.

At Onawa, in Monona county, a large
crowd had gathered, the train stopped
for about ten minutes and Mr. Bryan
went out on the platform and address-
ed the people. When the train ar-
rived in Sioux City the candidate was
greeted by a large crowd at the de-
pot, and he was escorted to the large
train shed of the union depot, where
he spoke for thirty minutes to a crowd
that was estimated to contain 16,000
persons. Not only the population of
the town turned out in force, but
big delegations were present from Ne-
braska, just across the river. After
the speech he was driven to the Mil-
waukee depot, where a train was wait-
ing to take the party to Sioux Falls.

There was a dodge made into South
Dakota at Elkpoint, where, among
fields of corn, several hundred farmers
waited for the arrival of the candi-
date, and to these he spoke for two
minutes. Sioux Falls gave Mr. Bryan
his first real reception in Dakota. It
drew on three states for crowds—Min-
nesota, Iowa and Dakota—and the
crowd was there.

A jump was taken back into Iowa
at Hawarden, and here the farmers sur-
rounding the car showed more en-
thusiasm than at any place on the west-
ern trip. Canton, S. D., was the next
stopping place and in the five minutes
there Mr. Bryan spoke briefly to a
crowd of farmers, who heard him with
attention and applauded him with
vigor. Sioux Falls was reached short-
ly after 2 o'clock.

Chairman Butler Guesses.

Washington, Oct. 10.—Senator But-
ler, chairman of the populist national
committee, has made an estimate in
which he claims as "reasonably safe for
Bryan" the states of Alabama, Arkan-
sas, Florida, Georgia, Louisiana, Mis-
sissippi, Missouri, South Carolina, Ten-
nessee, Texas, Virginia, Colorado, Ida-
ho, Montana, Nevada, North Dakota,
South Dakota, Utah, Washington, Wy-
oming, Kentucky, Kansas, Nebraska,
Indiana, North Carolina, Oregon, Cali-
fornia, Maryland and West Virginia,
giving 232 votes, while he says Bryan's
chances are at least even in Illinois,
Delaware, Michigan and Iowa.

Silver Meetings at Chicago.

Chicago, Oct. 10.—Free silverites
held two meetings yesterday at Tat-
tersall's. The speech of the day was
made by Congressman Towne, of Min-
nesota, and was a carefully prepared
address. Senator Teller, who was to
address the afternoon meeting, found
himself too hoarse to make himself
heard and with reluctance was obliged
to assign his part of the day's program
to other speakers. Professor Walter
Thomas Mills and H. F. Bartine of
Nevada, were the principal speakers of
the afternoon.

Will Address Women.

Minneapolis, Minn., Oct. 10.—The
local committee of arrangements an-
nounces that Mr. Bryan will speak here
Monday evening at the Lyceum theater,
exclusively to women. This is a de-
cided innovation in the campaign.

President Cleveland's Position.

Chicago, Oct. 10.—An invitation to
President Cleveland to address a mass
meeting of the American Honest
Money league brought the following
reply: "While it is impossible that
any of my fellow citizens should have
the least doubt as to my sentiments
on the vital question which at this time
absorbs so largely the attention of our
people, the work of advancing sound
financial ideas and the labor of enforc-
ing the lessons of public and private
honesty and morality, I feel, must be
prosecuted without such participation
on my part as you suggest. Wishing
for the league the utmost success in
its patriotic endeavor, I am, yours very
sincerely, GROVER CLEVELAND."

Rejects "National Democracy."

Indianapolis, Ind., Oct. 10.—The
state board of election commissioners
met Friday night and spent two hours
in considering the question of per-
mitting the "national" democratic state
ticket to go on the official ballot under
that name. The board decided that the
name could not be used. After the de-
cision was reached the governor re-
quested that Chairman Pickens would
suggest another name for the ticket,
but if he declines to do so the board
will select a name.

Prairie Fires Raging.

Pipestone, Manitoba, Oct. 10.—A
prairie fire has passed over this vicin-
ity, sweeping everything in its path
and burning acre after acre of grain in
stacks, buildings, cattle, horses and
farm implements. The fire has been
burning for several days. Many peo-
ple in this district are left homeless.
Reports from other parts of the province
also tell of the extensive destruction.

THE TRADE REVIEW.

Business Conditions Show a Distinct Im-
provement.

New York, Oct. 10.—R. G. Dun &
Co.'s Weekly Review of Trade says:
Distinctly better conditions have ap-
peared of late and are reflected in
somewhat larger employment of labor,
in larger transactions and in continued
buying of materials for manufacture.

A great part of the change is due to
those resistless laws of supply and de-
mand which take wheat where it is
wanted and gold where it is wanted.
India is waiting for cargoes of wheat
on the way from Pacific states, just as
Australia and south Africa were not
so long ago. The surplus usually
available from India disappears, and
the surplus from Russia and European
countries is reduced, according to late
estimates, 75,000,000 bushels.

Happily this country has a supply
which official accounts have not cor-
rectly measured, if actual government
reports do not greatly mislead. West-
ern receipts for the week were 7,243,969
bushels, against 7,351,474 last year,
and this follows an increase of 14,000,-
000 in receipts during the quarter end-
ing Sept. 30. Atlantic exports were
2,069,071 bushels, flour included, for
the week, against 1,707,629 last year,
but are not yet so large as to force
prices upward if European buying
based upon European needs did not
control our markets.

A feature of large importance, too,
is the unusually heavy foreign demand
for corn, which is a rarely falling sign
of deficient crops abroad, where other
grains are used instead when wheat
becomes scarce and dear.

Textile manufacturers are gaining a
little and the buying of wool by large
mills covers 7,662,800 pounds for the
week, against 11,249,200 last year.
Prices advanced about 1 per cent in
September and have since advanced
even more, though few of the mills
have orders for a long time. Buying
of cotton has been checked by heavy
receipts from plantations, 1,122,287
bales having come into sight in Sep-
tember, against 542,394 last year. The
price has dropped seven-sixteenths for
the week and fewer now have confi-
dence in a crop of only 7,000,000 bales.
Failures for the week were 236 in
the United States, against 268 last year,
and forty-six in Canada, against fifty-
two last year.

ENTIRE FAMILY DESTROYED.

Insane Slaughter of Wife and Two
Children by Albert Bray.

Noblesville, Ind., Oct. 10.—Albert
Bray, aged 39, a prosperous farmer,
cut the throats of his wife, of his 9-
year-old son Carl, of his 2-year-old
daughter Edna, and of himself, be-
tween midnight and daylight Friday
morning, five miles north of here. The
wife and children died at once, but
Bray, with a gaping wound in his
throat two inches deep and six inches
in length, lived until noon without re-
gaining consciousness. The work was
done with a razor. Bray procured an
ax and crushed the skulls of his vic-
tims after he had used the razor upon
them. Bray was demented over sick-
ness in his family and some financial
embarrassment.

Bank Robbery at Brainard, Neb.

Omaha, Neb., Oct. 10.—Burglars en-
tered the bank of Brainard early Fri-
day morning and demolished the vault
with dynamite. Cashier A. K. Smith,
who occupied rooms directly across the
street from the bank, was awakened
by the sound of the explosion. He took
his revolver and started to investigate.
As he reached the street two men darted
out of the front door of the bank.
Smith at once opened fire upon them,
none of the shots taking effect. The
doors of the safe had been blown out
and the bank was badly wrecked. The
cash was contained in a steel box in
the interior of the safe, which had not
been affected by the explosion.

Georgia Populist Losses.

Atlanta, Ga., Oct. 10.—The return
received so far from Wednesday's elec-
tion show that the total populist vote
will not exceed 85,000. It was 88,888
in 1894, showing a decrease of 3,888.
This falling off is largely attributed to
the capture of the negro vote by Gov-
ernor Atkinson. The official figures
coming in do not result.

One of the features of the election is
that every congressional district in
Georgia is democratic and will send
a democratic representative to the next
congress. The Journal's estimate of
the vote by counties, corrected up to
date, places Atkinson's majority at
24,405.

Texas Assassin at Bay.

Dallas, Tex., Oct. 10.—John McCul-
lough, an aged and highly respected
planter, near here, was murdered last
Friday night by an assassin who had
concealed himself near McCullough's
house. Since the assassination a posse
of sheriffs, other officers and farmers
has been searching for the assassin.
Yesterday evening a telephone message
was received at the sheriff's office from
Eagle Ford, six miles west of Dallas,
that one of the posse had surrounded
the assassin in a thicket near that place
and that he had shot Robert Miller, a
member of the posse, in the breast, and
that Miller was dying.

Lightship Is Safe.

Queenstown, Oct. 10.—The Daunts
Rock light-ship reached Tromore bay
safely Friday afternoon. The crew are
all well.

GASHED HIS THROAT WITH THE RAZOR

AGED RESIDENT OF SHARON ATTEMPTS SUICIDE.

Has Lived in That Village Since Its
Early Settlement—Mind Believed
To Be Deranged Because of Illness
—Physicians Think He Will Re-
cover—Other State "Specials."

Sharon, Wis., Oct. 10.—[Speci-
al.]—Harvey Borst, an old and respect-
able resident of this town since its early
settlement, had made an attempt to
commit suicide by cutting his throat,
and succeeded in cutting a deep ugly
gash across his wind pipe. If the
wound an extended a sixteenth of an
inch further, the attending physician
claims it would have severed the jugu-
lar vein and death would have resulted
instantly. However, it is believed
now that he will recover.
Mr. Borst is about seventy-six years
old. For several years he has been in
very poor health, which has reduced
him physically and mentally. For
some time passed he has been laboring
under the hallucination that he was
being pursued by a lot of men. His
wife and son have carefully guarded
his movements on that account ever
since, but he got a chance to attempt
suicide, and did so.

Murder Mystery at Madison, Wis.

Madison, Wis., Oct. 10.—A thorough
investigation by the authorities has
conclusively shown that Gus Peterson
was murdered, and every effort is be-
ing made to find the guilty one. Pet-
erson's body was found in a trench which
had been dug for water pipes and was
partly filled. The body when discover-
ed had about a foot of earth over it.
The coroner's jury brought in a verdict
of death by suffocation at the hands of
parties unknown. The authorities are
in consultation and a reward of \$200
will be offered by the county and an-
other for a like amount by the city.

Wisconsin Ex-Postmaster in Jail.

Bayfield, Wis., Oct. 10.—Louis J.
Bachand, the former postmaster here,
who demanded possession of the post-
office from Acting Postmaster Nelson
Boutin Monday last, was arrested Fri-
day by Deputy United States Marshal
Meehan on a charge of embezzlement
and taken to Ashland for trial. The
bondsmen took charge of the office in
August, 1895, finding a shortage al-
leged to have been nearly \$1,000. Ba-
chand claims he is innocent of any
defalcation and can so prove at the
proper time.

CHICAGO CELEBRATES.

Gold and Silver Partisans Each Have an
Immense Demonstration.

Chicago, Oct. 10.—Sixty thousand
men on foot, on horseback, on floats,
in carriages, all of them directly iden-
tified with the industrial and commer-
cial activity of Chicago, on Friday oc-
cupied the downtown streets from 10
o'clock in the morning until 4:15
o'clock in the afternoon. This was the
composition of what was admittedly
the largest, the best-managed and the
most successful parade ever witnessed
in this city. The parade was viewed
by prominent republicans and gold
democrats and was intended as a dem-
onstration for gold.

The silver men owned Chicago at
night. Twenty thousand tramps
through the business center. They
filled Tattersall's building to hear
silver speeches and crowded around
the score of stands which were of the
at street corners to take
overflow.

GOLDEN WEDDING AT THE JUNCTION

MR. AND MRS. COON MARRIED
FIFTY YEARS.

Anniversary Was Fittingly Celebrated
By Relatives and Friends and Numerous
Handsome Gifts Were Pre-
sented Them—Other News of That
Village—The Week at Clinton.

Milton Junction, Oct. 9.—On Monday of this week, Oct. 5, occurred the fiftieth anniversary of the wedding of Mr. and Mrs. Lafayette Coon of this place. About forty relatives and friends were present to help them celebrate this event. After a time spent in social converse, Rev. George Burdick made a few remarks to the happy couple, closing with a prayer, after which he presented to them the tokens of esteem which had been brought in by the family and friends. A letter from an absent son was read, regretting his inability to be present, and congratulating his father and mother on their reaching the fiftieth milestone in their wedded life. William Born, also of Kansas, father of H. A. Born, of this city, and a life long democrat, votes his first republican ticket this year, and he writes that "there are others."

The local physicians are much stirred up because of a false report that has been circulated about town, and printed in a number of county papers, in regard to their holding a meeting for the purpose of raising prices. The Gazette is in receipt of the following:

EDITOR GAZETTE—Notice has appeared in the papers of several of the surrounding towns that the physicians of Janesville had met and advanced their prices. Such is not the fact. Their meetings have been held for the discussion of professional topics and not to change their fees. PHYSICIANS.

HER HAPPY DAY.

A CHARMING STORY OF MEDICINE AND MARRIAGE.

Two Open Letters From a Chicago Girl—Ho, Happiness Came to Her.

Among the tens of thousands of women who apply to Mrs. Pinkham for advice and are cured, are many who wish the facts in their cases made public, but do not give permission to publish their names for reasons as obvious as in the following, and no name is ever published without the writer's authority; this is a bond of faith which Mrs. Pinkham has never broken.

Chicago, Jan. 15th, '95.
My dear Mrs. Pinkham—
A friend of mine, Mrs. W. H. Sargent, writes me to write you, because she says: "you did her so much good" I am desperate. Am nineteen years of age, tall, and weighed 138 pounds a year ago. I am now a mere skeleton. From your little book I think my trouble is profuse menstruation. My symptoms are:—

Our doctor (my uncle) tells father that I am in consumption, and wants to take me to Florida. Please help me! Tell me what to do, and tell me quickly. I am engaged to be married in September. Shall I live to see the day?

Chicago, June 16th, '95.
My dear Mrs. Pinkham—
This is a happy day. I am well and gaining weight daily, but shall continue the treatment and Vegetable Compound during the summer, as you suggest. Uncle knows nothing about what you have done for me, because it would make things very unpleasant in the family. I would like to give you a testimonial to publish, but father would not allow it. . . . I shall be married in September, and as we go to Boston, will call upon you. How can I prove my gratitude?

THE WRECK MADE TRAINS LATE

St. Paul Limited Held by a Smash-up at Waunakee.

Janesville passengers for Chicago last evening waited at the Northwestern depot three long and weary hours and were landed in the World's Fair City long after the midnight hour. The St. Paul passenger due here at 7:20 was delayed at Waunakee by the ditching of a train of flat cars, caused by the cars jumping the rails as the result of running fast upon a newly built track.

Trains to the city from Chicago were late on account of the crowds who attended the Chicago day celebration.

A motto for working men and women:
"A dollar's worth of dollar, for a dollar's worth of work."

MILLS WILL SHUT DOWN.

A sample of the extent to which the working people are concerned in the outcome of the contest between McKinley, sound money and protection on one side and Bryanism, fifty-three cent dollars and free trade on the other, is furnished by the big carpet manufacturing firm of W. T. Smith & Son, of Philadelphia. In a conspicuous place in the firms factory is posted the following significant notice:

"To the employees—ladies and gentlemen:—If McKinley receives the appointment as manager of the business affairs of our country for the next four years, this mill will start upon full time and full work the day after we receive notice of his appointment. Should Mr. Bryan be appointed manager, we will close down the next day until such time as the rearrangement of the monetary system is completed which will probably take one year from his appointment from March 4, 1897."
"W. T. SMITH & SON."

Another big carpet manufacturer in the Kensington district makes no secret of the fact that he will either sell out, if he can find a purchaser, or shut down his mill. It is a fact that still another manufacturer declares, that not a single mill of any size is running on full time in the Kensington district, which is the center of the carpet industry of the country, and that there is not a manufacturing establishment in the entire district where the scale of wages is equal to what it was before the present tariff laws went into effect.

"If the possibility of depreciated dollars and a continuance of the democratic tariff policy will bring about such a deplorable result," said the latter manufacturer, "what would the reality be? As the workingmen of the Kensington district are affected so will the workingmen of the entire country be and hence I take it that there is little chance that many intelligent men, who earn their living, will thrust the knife into their own interests by voting for Bryan."

LIKE A SURGEON'S KNIFE.

The lancet of the surgeon is no more pitiless than is the satire of Bourke Cockran as he exposes the "business" of Bryanism.

"When a young gentleman comes out of 'braska,'" says Cockran "with the statement that the affairs of this country have been going for twenty-five years down hill at such a rate that, unless he can be trusted to stop their descent, by the power of his voice, the government will go to smash, it is just as well that you should ask him for some motive for the mission which he declares has been confided to his hands. This disposition to delude the minds of men with wild oratory and big words is as old as human civilization. The neo-mancers of the Middle Ages were famous for it. Sometimes one of these gentlemen, grim-visaged and cabalistically garbed, declaring himself to be the seventh son of the seventh son of a populistic ancestor (laughter), would visit the farm and with words which were largely composed of bogus Latin and Greek and sometimes of English words with a transposition of syllables, they would induce the farmer to part with a cow or with an ox on the ground that they would make some sacrifice, which they would carry on with the entrails of the animal in some secure place and the rest of his herd would prosper.

"When the populist orator asks you to entrust the entire financial system of the country to his untried hands, to declare that our government has been a failure, that the republic founded by Washington, enlightened by Jefferson, administered by Jackson and saved by Lincoln, unless this Nebraska orator turns his voice upon it, it is just as well that you should ask for some security that the thing he promises to do will in fact be done."

Bryan admits that a commercial panic would follow free coinage. He is willing to stand a panic for he sees that it will favor the lawyer's business. The business men and workmen of

the country will have a word to say, however, before the panic is inaugurated.

Mr. Bryan admits, at least, that "no political reason can excuse an attack upon property." He ought to understand why the 5,000,000 depositors in savings banks, whose savings he expects to cut down 47 per cent. will vote against him.

If any man of national reputation aside from Mr. Bryan is making free silver speeches his name has been overlooked. There never was a campaign when nobodies had a chance to talk as much as they have this year.

This year will show that people who take care of their sense, take care of their dollars at the same time.

EATON WAS SLAIN THE POLICE THINK

FORMER JANESVILLE MAN MURDERED AT CHICAGO.

Inmates of the Boarding House in Which He Met His Death Claim That He Committed Suicide But Conditions Do Not Bear Out the Statement.

Samuel Eaton, a former Janesville man, died in Chicago under suspicious circumstances yesterday, and the police think he was murdered.

Eaton, who was twenty-one years, old and employed as a switchman by the Northwestern Railway company, was found dead at 4:30 o'clock in the morning in the hallway on the third floor of a boarding house on West Madison street, with a bullet hole in his left breast, two inches to the right of his heart. A second bullet had pierced his clothing, but a button on his vest had made it pass to one side of his body, and lodge in the wooden hallway.

May Miller, who lives in the house with Emil Meier and Lynn Tozer, better known to his friends as Joe Freeman, who were companions of Eaton, were arrested and locked up at the Desplaines street police station, pending an investigation into Eaton's death.

Revolver By His Side.
The revolver which belonged to Eaton, and which caused his death, was found concealed in a corner of Mrs. Miller's room under a pile of clothes. This fact, and the fact that the dead man's clothes were not powder burned, as they would have been had he fired the shot, and also the conflicting stories told by the parties under arrest, lead the police to believe Eaton did not commit suicide, but was murdered. It is alleged by the inmates of the house that Eaton had repeatedly threatened to commit suicide. It is also alleged by the inmates that Meier had threatened Eaton's life.

The Desplaines street police were notified of Eaton's death by Tozer, who rushed into the station at 5 o'clock and asked Desk Sergeant Fleming to send the ambulance to 217 West Madison street. Tozer said he had spent half an hour in trying to find a physician who would attend the injured man but without success.

When the ambulance men reached the boarding house they found the place in a turmoil, and stretched out on the floor in the rear of the third floor hallway was the body of Eaton. The body was cold, the man having probably died instantly.

Big Crowd Gathered.
The house, which was kept by Mrs. Alice McCracken, was surrounded by a crowd of persons who had heard that a murder had been committed. The occupants had been aroused by hearing two shots, and Mrs. McCracken, who occupies a room in the second floor of the house, was one of the first persons, besides the Miller woman, Tozer, and Meier, to reach the dead man's side. The three latter were there, telling Tozer to hurry for a physician.

Mrs. McCracken knelt and found Eaton breathing his last. He was gasping for breath and unable to say anything, dying a minute later. He was lying on his stomach with his head toward the rear of the hall. The body was taken to the county morgue, where an examination was made, which resulted in finding the wound near the heart.

Identity Is Established.
In the dead man's pocket was found a silver watch, \$7.95, and an employee's card bearing the name of Samuel Eaton, mechanical department, the Chicago & Northwestern railway.

Eaton's home was found to be at 54 Avers avenue, near the railway shops Chicago, papers say he was the sole support of his father and mother. According to statements made by the three persons under arrest, Eaton is supposed to have shot himself. He had called at the house early last evening to see Miss Miller, and while there he had quarreled with Meier in his room. Later Eaton and the woman left the house together.

Later they returned, and began quarreling about Meier. Just before the shot was fired the Miller woman was heard to exclaim: "Oh, I'm dying." This was followed by the falling of a heavy object. Then a door was slammed heavily and another shot was heard. Eaton's body was found ten feet from Meier's room, lying face downward in the narrow hallway.

The dead man was well known here, having lived in Janesville for some years. His father was a machinist in the employ of the C. & N. W. road. Word of Eaton's tragic death was received by his cousin, L. A. Hemmens, today. The funeral will be held in Chicago Sunday, and the remains will be brought to Janesville on Monday.

F. J. Myhr was also notified of Mr. Eaton's death. Mrs. Eaton is a niece of Mrs. Herman Buchholz.

GEN. BRAGG SPEAKS NEXT WEDNESDAY

TO MAKE A PLEA FOR HONEST MONEY.

Local Gold Democrats Get Together and Make the Final Arrangements For His Appearance at the Myers Grand—He Will Make a Powerful Speech.

Honest money democrats, and the general public, will hear one of the foremost honest money advocates in the United States, at the Myers Grand Opera house next Wednesday, when General Bragg, the former commander of the "Iron Brigade," will speak for the gold standard and national honor.

There had been some doubt about the general's keeping the Janesville engagement, but all plans have been made, and he will appear as first announced. Prominent democrats believe in the preservation of the nation's standing, and renounce the Chicago platform as populist and not democratic, got together, and made the final arrangements yesterday. The opera house has been hired, and plans for the greatest honest money rally of the campaign are now completed. The gold democrats will spare no pains to make the rally the greatest one of the campaign, and the cause of honest money will be greatly advanced thereby.

Was "The Foremost Democrat."

General Bragg needs no introduction to Janesville people. For many years he has been one of the leaders of the democratic party in Wisconsin and what is more, a man of national political prominence. While a democratic member of congress he distinguished himself in many ways and was always true to himself and his constituents. His war record is too well known to need any eulogy. When the gold democrats were looking for the best man in the United States to lead their third ticket fight in the present campaign, General Bragg was at once settled upon and; at one time his nomination was conceded. Meantime it became apparent that Wisconsin would not go for silver, while Illinois was much closer. Therefore General Palmer, of Illinois, was nominated, General Bragg moving to make the nomination unanimous before the calling of the roll was completed.

Will Make a Strong Speech.

That General Bragg will make a telling speech, goes without saying. People who go to the opera house expecting to hear flights of oratory and brags of rhetorical blossoms, will be disappointed, but those who go to hear facts—facts bluntly and convincingly presented—will not be disappointed. General Bragg speaks directly and to the point. In congress he was a power, and many are the stories told where his biting sarcasm and blunt, telling sentences overcame the oratory of men who stood high in the nation's councils.

General Bragg has taken the field this year, in the same cause that led him to don the blue, and march at the head of the Iron Brigade in '61—to preserve the nation's honor. All through the state he has been received with great enthusiasm. He wants no office; he seeks to honor at the hands of his fellow men; but he is appealing to the patriotism of the people of Wisconsin, when national honor is hanging in the balance.

The American people honor a man who serves his country when he believes his country needs his services.

Such a man is General Bragg. All people, irrespective of party, will be on hand to hear his patriotic address.

JUDGE DICK DECIDES A LAW SUIT.

Says The Firm That Claimed a \$700 Hold on the Carpenter Block at Beloit, Must Look Elsewhere For Their Pay—Other Court News and Decisions.

Judge Dick, of Beaver Dam, has decided that the transfer of the Carpenter block, at Beloit, was regular, and that there was no fraud.

The decision was rendered after a suit had been tried in this city. It involved about \$700, to collect which it was necessary to set aside the transfer of the James M. Carpenter block, worth \$30,000, at Beloit. The case is one of the long standing, it having been dragging along through the past six years. Constable A. K. Cutts appeared as receiver in the interest of Bunting & Company, an eastern firm, and against James M. Carpenter, A. B. Carpenter and others, who formerly resided in the Line City. Danwidde & Wheeler represented the plaintiff and Jackson & Jackson appeared in behalf of the defendant. Judge Dick's decision is to the effect that the firm must seek elsewhere for their pay, as the transfer of the block was all right. Suit Over Drainage Plan.

To drain or not to drain, that is the question—at Evansville.

The city authorities want to drain a large area of land in that city.

Lawrence Shiveley doesn't want it done, saying that it will injure his property. Accordingly, Mr. Shiveley has enjoined the city and others, and the case will come before the court on Monday. E. D. McGowan is Mr. Shiveley's attorney.

Beloit Couple Divorced.

Judge Bennett today severed the bonds that joined a mis-mated Beloit couple as husband and wife. The case was that of Anna L. Wendell versus William T. Wendell. Desertion was the charge made, and the defendant did not appear. The plaintiff was in court, and J. B. Dow appeared as her attorney.

BRYAN'S INTELLECT.

DISTINCTLY FEMININE IN HIS MENTAL ATTRIBUTES.

The St. Louis Globe-Democrat (Republican) Sizes Up the Democratic Candidate for President—A Slave to Strange Emotions—Sees Sure Defeat.

The St. Louis Globe-Democrat (rep.) in part sums up the mental attributes of Mr. Bryan as follows: "Mr. Bryan's intellect is distinctly feminine in its character. He is alert, nimble, intuitive; but he is severely illogical, and his utterances do not betray a tinge of the judicial temper. It would seem morally impossible for him to advocate a cause he did not honestly accept, but his beliefs are evidently the children of his emotions and his sympathies. He is morally, but not intellectually, sincere. This is a distinction which many people do not make." Like all men of feeling he utters the inspirations of the moment regardless of the fact that they may directly contradict past utterances. Every man should get a portion of his heart into his brains in order to give some genial warmth to his ideas. But too much heart floods reason and illogic follows. Mr. Bryan has evidently no parity between heart and mind. It is a 16 to 1 mixture and his ideas are worth but fifty cents on the dollar. For instance, he once distinctly asserted that if the democrats did not put up a silver platform he would bolt the party. Now evidently this position would logically support the divine right of bolting by any one. It surely should be an exclusive privilege for Mr. Bryan. But he selfishly thinks it is, for in his speech in Richmond last Friday he said: "I want to warn you who are in contemplation of desertion from the democratic party at this time that the man who in the face of such an enemy either goes to the rear or is found in secret conference with the enemy is a traitor, upon whom the brand shall be placed, and he shall not come back again." Truly "here's richness," as Mr. Squeers would say. Mr. Bryan is now branding bolters, sending them out into political darkness with the anathema, "depart ye, accursed," and return not forever. But there is consolation in these words. When it begins to dawn upon a candidate that he is licked he begins to scold. Mr. Bryan's illogic must come from the consciousness of defeat.

Why Prices Have Fallen.

P. E. Studebaker in Commercial Advertiser: I maintain that the true cause of the change of prices in America and the world over has been science and improved machinery. Everything can be produced cheaper than ever before. When we first commenced to manufacture wagons steel was worth \$120 per ton. Today it is worth \$30 a ton. Iron cost \$100 a ton then; today the price is \$25. The freight on the first carload of wagons we ever shipped to Chicago was \$41; today it is \$12.

Freight wagons, such as the mine owners bought from us in 1865 and 1866 to haul their machinery from St. Joseph to Colorado, Utah, Montana and Idaho and for which they paid us \$200, we will sell them today for \$96.

The first car of farm wagons we ever shipped to Kansas City was in 1865. We received for each wagon \$124, delivered on the levee. The freight was \$18 per wagon, netting us \$106 at the factory. Today we will sell the same wagon at \$50. Will deliver it to Kansas City for \$53. The reduction in freight from \$18 to \$3 per wagon is not so bad, considering the wicked railroads did it.

Our first agent in Galveston, Tex., was ex-Governor Lubbock, a grand old man. He paid us \$110 for the kind of wagons we sell now for \$50. The freight per car was \$400, the wharfage at New Orleans was \$24 per car and the wharfage at Galveston \$18 per car. The freight now is about \$125 per car. Colonel Trumbull of Brenham, Tex., once paid me \$4,400 in gold for wagons, and I had to carry it in my grip sack to Galveston to get New York exchange. Suppose he had paid me in silver. It would have weighed about 350 pounds, and I would have had to ship it as freight. I don't believe Texas will vote for a silver standard. The people are called a little rough down there, but they have lots of good, sound, business sense, even the cowboys.

Who Is Responsible.

In 1892, with every mill and factory running on full time, with every honest man who wished to work steadily employed, the consumption of the domestic wheat in the United States amounted to over 386,000,000 bushels, and the consumption of corn to nearly two billion bushels—to be exact, 1,933,551,715 bushels. In 1895, with the deadly Wilson law killing the purchasing power of our wage-earners, the home consumption of wheat had fallen to 315,000,000 bushels, and of corn to 1,134,000,000 bushels. In that brief time the population of the United States had increased 5,000,000, yet this enlarged population of 70,000,000 consumers was able to buy 70,000,000 less bushels of wheat and 800,000,000 less bushels of corn than our 65,000,000 people bought and consumed in 1892.—N. Y. Press, Aug. 24, 1896.

History Repeats Itself.

Bryan delights in bragging that he is the nominee of three conventions. This reminds an exchange of a story. A man, boasting of his son to a farmer, stated that the son was a graduate of three colleges. "Well," said the farmer, "I don't know as that proves much. I had a calf once that sucked three different cows and my observation was that the more cows, the bigger calf."—South Bend Tribune.

A CURRENCY A B C.

A Common-Sense View of the Situation.

New York Lumber Trade Journal: Let us not bring ra do SCHRDLO—matters in this connection with the free silver idea.

Let us not befog our brains with arguments about the "crime of '73", or bother with the many theories which the advocates of free silver are giving us.

Now, to start with. Suppose Bryan was elected and the free coinage act had been passed, and that free coinage was an actual fact. Suppose that silver could be taken to the mint, and coined into silver dollars, at the ratio of 16 to 1.

How would that affect us?

We haven't got any silver coin.

A whole lot of people who own silver mines have it, and so they could have it coined into 16-to-1 dollars; but, not having any ourselves, we could not have a solitary, single dollar under the free silver act.

Now, suppose, however, that all the silver mine-owners and others who had silver took it all to Washington or Philadelphia, or to some other United States mint, and had it coined into 16-to-1 dollars, and

Suppose so much had been coined that all the silver in the world was made into 16-to-1 dollars, and

Suppose that every one of these dollars were piled up in one heap, right on the next block, and

Suppose every single one of them was worth 100 cents here and everywhere.

What good would they do us, unless we had something we could trade by which we could get one?

Well, we have something to trade; everybody has.

Some have labor, so much for a dollar.

Some have lumber, so much for a dollar.

Some have sugar, or potatoes, or hams, or coal, or something else, all so much for a dollar.

We have advertising and subscriptions so much for a dollar.

When we want one of those silver dollars, we cannot go and take it; they don't belong to us; they belong to the men who took the silver to the mint to be coined.

If we took one, it would be stealing. If we asked for one for nothing, it would be begging.

If the owners gave us one for nothing, it would be a gift.

If we borrowed one, it would cost us interest, and so

Most of us, to get one, must trade labor, lumber, sugar, coal, advertising or something to get it.

This is absolutely and honestly so, isn't it?

Well, being so why do we take any chances on the dollar?

We can get gold now.

It is worth 100 cents on a dollar everywhere.

So we have supposed the silver to be but

Suppose it isn't?

What then?

What is the use of taking a chance unless we can do better? A silver dollar won't be worth more than 100 cents, will it?

We are getting that now.

Let well enough alone.

Some say duty compels a democrat to back up and vote for a democrat.

You have Bryan's word that he is no democrat. Let him dare deny that he said it.

Some say it is pretty bad now. We might as well take a chance. It can't be worse.

What kind of tomfoolery is this?

When our baby lay at death's door, did we do any experimenting? We tried everything which could cure, but we did not experiment.

Are things bad in a business way?

Let us tell you something to try.

Vote down this crowd of repudiators.

Tell the world in trumpet tones in November that we want the best money, that we will take no other, and business will revive.

Let the capital out that Bryan and his followers have scared under cover, and prosperity will come.

Weyler's Flat Dollar.

Weyler's attempt to make the people of Cuba, still within the Spanish lines, believe that it doesn't make any difference what the dollar is made of or what the material in it is worth so it has the "government stamp" on it, fails to convince that ignorant people and they are already giving 15 per cent premium for gold in Weyler's government bank notes. And yet if Weyler catches anybody in the act of refusing to take his flat money at par he will have him shot. Even that doesn't make the Weyler dollar worth a hundred cents. Much as a man values his life he will ask it to a considerable extent to escape a swindle.

It is not the money loss that hurts him worst, it is the natural disgrace that a human being feels at being played for a sucker. Time and again the flat money cheats in all ages attempted to enforce their fiat by penal enactments, even going so far as to make a refusal to take their trash at par, punishable with death, but never was it of any avail. The people always managed to knock it out by refusing to sell their goods for it at the same price they took in sound money. You can lead a horse up to the trough, but you cannot make him drink heartily with blows or threats. The human animal is still more obstinate.—Lincoln (Neb.) State Journal.

The man who sold the lion's skin while the lion was yet alive was killed in hunting him, and democrats and populists who are trading to one another the offices of the people while the people are wide awake may find a profit in studying the fate of the skin-seller.

THE CAB DRIVER.

His Way of Making a Bicyclist's Life Miserable.

"A new sport has lately been devised by the drivers of hansom cabs. It consists of chasing the lady who rides her bicycle in the streets of the metropolis." So writes the countess of Malmesbury in the current Badminton Magazine, and she proceeds to give her own experiences of cabby's not very welcome attentions in this particular respect. Riding on a track began to bore the countess as soon as she had learned to balance, but she remained practicing in the seclusion of the Queen's club, where she was taught till she was quite mistress of her cycle. Then:

"Burning to try my fate in traffic, and yet as nervous as a hare that feels the greyhound's breath, I launched my little cockle shell early one Sunday morning in July into the stormy oceans of Sloane street, Knight's bridge and Park Lane, on my way to visit a sick friend who lived about four miles off, beyond Regent's park. The streets were really very clear but I shall never forget my terror. I arrived in about two hours, streaming and exhausted, much more in need of assistance than the invalid I went to console. Coming home it was just as bad. I reached my home about 3 o'clock and went straight to bed, where I had my luncheon, in a state of demoralization bordering upon collapse. I only recount this adventure in order to encourage others who may not have had the same experience as myself but who, unlike me, may not have tried to conquer their nervousness.

What cured the countess' fear was the information that cycles are "vehicles within the meaning of the act." From that moment her attitude toward hansom was, in the classic words of Punch, "Also schnapp ich meine finger in deiner faust."

Drivers of hansom have, according to the countess, various ways of inflicting torture in their cycling fellow-creatures:

"One way is suddenly and loudly to shout out 'Hi!' when they have ample room to pass, or when you are only occupying your lawful position in a string of vehicles. Also, they love to shave your handle-bars and wheel, passing so close that if you swerve in the slightest—which, if you are possessed of nerves, you are likely to do—it must bring you to serious grief. They are also very fond of cutting in just in front of you or deliberately checking you at a crossing, well knowing that by so doing they risk your life, or, at any rate, force you to get off."

The countess always rides peaceably about seven or eight miles an hour, keeping a good lookout some way ahead, by that means often slipping through a tight place or avoiding being "made into a sandwich, composed let us say, of a pedestrian who will not and an omnibus which cannot stop."

As regards the comparative demerits of omnibuses and hansom, the countess suggests the old riddle. "Why have some white sheep more wool than black ones?" The answer is, "Because there are more of them." But ladies are not the kind of game at which omnibus drivers fly.

TRADE MARK

A man's health is the rope by which he climbs to success. If he can keep his health, he will go on to success. Yet his health is the very thing he neglects more than anything else. It is easier to keep health than it is to regain it. When a man feels himself running down, when he realizes a loss of vitality and energy, he must call a halt. The strands of his rope are parting rapidly. Doctor Pierce's Golden Medical Discovery has helped thousands of men in just this condition. It makes health, it makes pure, rich blood, it forces out impurities and kills germs. It doesn't make any difference what name you call your trouble by—dyspepsia—kidney disease—rheumatism—consumption—skin disease, the "Golden Medical Discovery" will cure it absolutely. None of these diseases can retain hold on the body when it is full of rich, pure blood.

But She Didn't Doubt Him.

"I wish you were a thousand miles away," she said pensively.

He was naturally surprised, as she had been most affectionate all the evening.

"Dearest!" he exclaimed. "What do you mean? How can you say you wish me so far away?"

"Oh, well, maybe that was an exaggeration," she admitted. "Call it a hundred."

"But why even a hundred?" he persisted.

"Well," she explained, "of course I wouldn't have you think that I doubt you for anything in the wide world, but if you were a hundred miles away you'd write to me, wouldn't you?"

"Of course."

"And if you wrote to me you'd write all of the loving messages that you now whisper to me?"

"Yes."

"Well, of course I don't doubt you," continued the modern up-to-date girl, "but I'd feel a lot easier in my mind if I could get you far enough away so that I could get some of this in writing once. There's nothing like documentary evidence."—Chicago Post.
